Downloading the Andriod APP
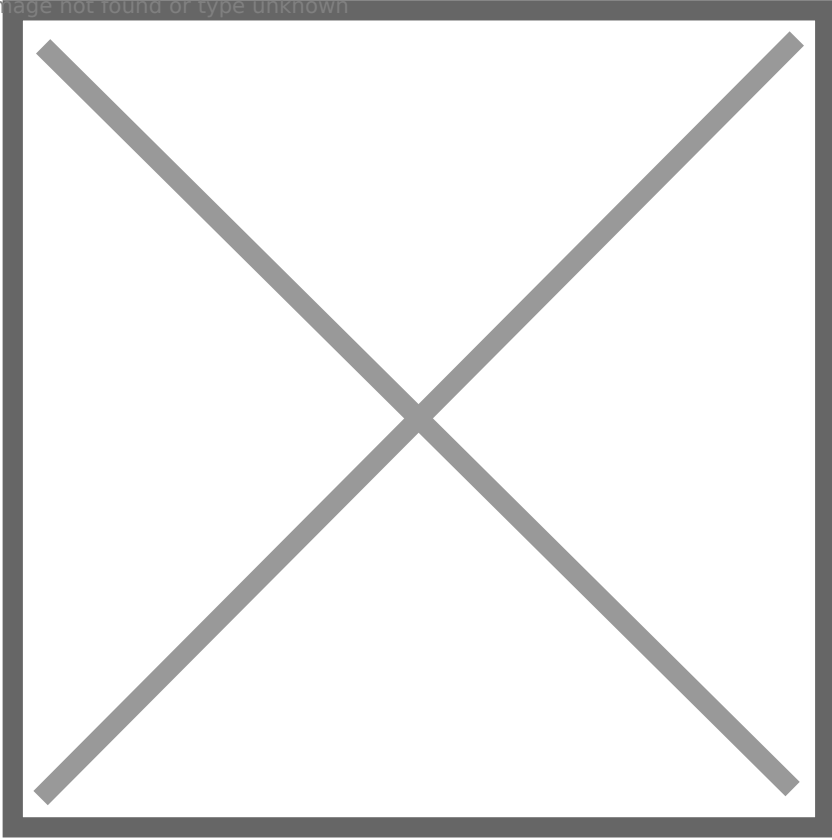

How to Install or Upgrade the APP on your Android Tablet

Open: https://forms.rakata.tech/mande/

Step 1

Click on the latest App Download link on the page with certain CRM. This will download the files.
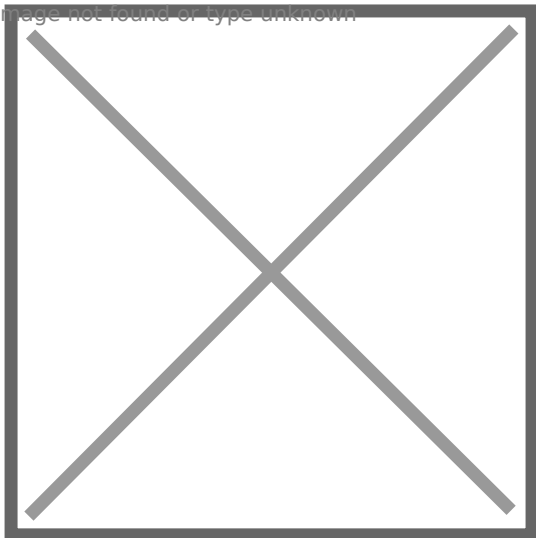

Step 2

Goto Files within the Android System – Type Files within the Search bar and click on the files icon.

**NB: The icons and look and feel may be different between Android Devices.**

Step 3

Click on Downloads

NB: The icons and look and feel may be different between Android Devices.

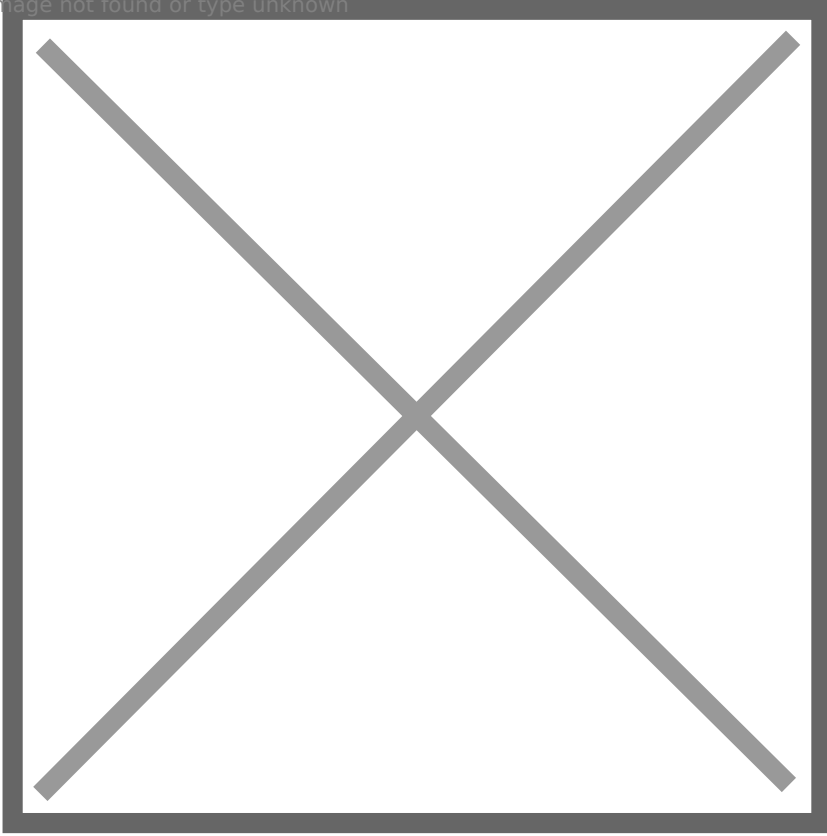

Step 4

Click the APK Download and install the file.

Please note you might need to set the system to allow an install from unknown sources. To do this following these steps and allow app installation from File explorer and Chrome

1. On your device, go to **Settings**.
2. Tap **Apps & notifications** > **Advanced**.
3. Tap **Special app access**.
4. Tap **Install unknown apps**.

5. Tap the browser from where you will download the APK, such as Chrome.
6. If prompted, toggle **Allow from this source** on.

Image not found or type unknown

Step 5

Install or update the APP.

Step 6

Check the App Version is the latest. Open the APP and press the Version 1.0 number with your finger.

Step 7

Check that the Requirement Number aligns with the latest version on the App screen
