

Create a Job Survey/Order (Measure Up)

Within RakataCRM a Survey is a critical piece of the system. Every order, quote, fitting etc has to be based on a Survey. A Survey is where the Order is created and products/costs etc set.

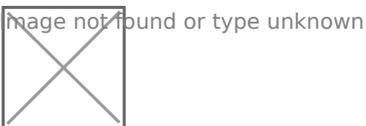

Tip! The Word "Survey" can be renamed to a term more specific to your business. This can be found in Adavanced User Settings.

1. Click the "Create Job Survey" button

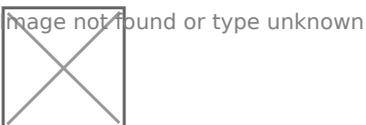

Tip! If you are visiting the site simply select No to the 1st option of "Is a Time/Date required?" which will create a Survey without any dates to visit.

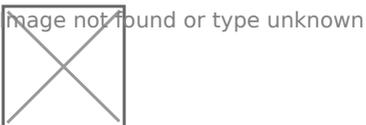

2. Complete the booking form

3. Set the Survey to and from time

4. Select the Surveyor

Tip! Surveyors are users that are in the Surveyor role. To manage users go to Advanced Settings and set the user you wish to be available for booking as a surveyor and mark them as a surveyor

5. Add a specific notes for the survey to see when visiting the property
